

During the Job study I have identified that they things in my life that I needed to work on improving.

As a result I have started Christian counseling that I felt the Lord was leading me to. Come to find out I do really need the counseling. I guess that I have self esteem/confidence issues that I was not aware of but co-workers were but did not want to point that out to me. So I am working on that.

I have also developed a closer walk with Christ through this study. I want to THANK YOU SO MUCH FOR ALL OF THE STUDY!!!!!!!!!!!!

Jennifer you are an awesome and such an inspiring speaker. God's Blessing to you.
